SUREN NETWORK CERTIFIED NETWORK ASSOCIATE

PHYSICAL CONNECTION TEST

1, Types of mediums ?

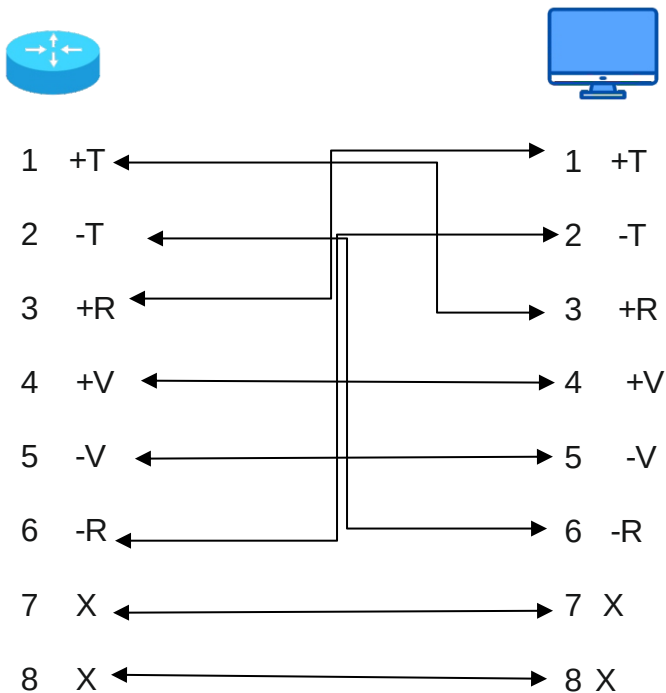

3 types of mediums,

- 1.radio signal (wireless)
- 2.electric signal (copper cable)
- 3.light signal (fiber cable)

2, Write down switch 8-pins ?

- 1 +T
- 2 -T
- 3 +R
- 4 +V
- 5 -V
- 6 -R
- 7 NOT USED
- 8 NOT USED

3, Connect utp cable between two devices

4, Explain AUTO MDIX ?

It automatically detects the cable type and internally swap the TX and RX pins.

So we can use any cable anywhere. devices will automatically adjust.

5, Explain POE injector ?

POE injector is a small adopter that adds electric power to an Ethernet cable, allowing a single wire to carry both data and electricity to a network devices.

6, Explain POE switch ?

Normally a switch only send data .but a POE switch sends Data + Power on the same Ethernet cable. some devices like ip camera and wifi access points need power + data.

7, Explain types of nic & function ?

A Network Interface Card (NIC) is a hardware component that enables a computer or any device to connect to a network. It acts as an interface between the device and the network, allowing communication by sending and receiving data.

3 types of NIC

1. Eathernet nic – RJ45
2. Fiber nic – Fiber cable
3. Wireless nic - wireless
